

*I* was raised in Madison, WI and my husband got transferred a lot. We lived in MPLS, MN, Charlotte, NC and then retired to Myrtle Beach, SC. We lived there for 11 years and then moved here almost two years ago.

*I* love doing watercolor and collage, especially abstracts.

*While* I was in Charlotte, I was named North Carolina Middle School Art Teacher of the Year in 1998-1999.

*I* love using bright, happy tropical colors when creating my paintings and want people to feel happy when viewing them. Creating art has always been part of my life since the fourth grade.

*Living* in The Villages is wonderful as there are so many opportunities available to create art and so many talented people to help you.

*I* taught art, grades 1-12, all of my teaching career.

*I* am also an active member of the VAL and VAA and love to learn new ideas and techniques.
